20th May 2010

To whom it may concern,

CSQ have provided communications and cabling services to Queensland Health for several years. I have used their services at Queensland Health for the last four years.

CSQ have always provided an excellent service and as such, are a preferred cabling contractor for Queensland Health. Their installation practices are first class and their customer service skills set them apart from other providers. They always go beyond just the "install" and work with us to provide a solution that fits in with our Healthcare environment.

As part of our customer requirements, we audit all work completed by our contractors. CSQ continually provide an exceptional installation. I know that when they say they complete the work, it is completed and to our standards and our post installation audits confirm this.

I do not hesitate in recommending CSQ for any communications or cabling services.

If you require any further information, please do not hesitate to contact myself on 0438 169 388.

Yours sincerely
